

## Have you ever wondered what it's like to be in on the ground floor of a technology startup?

We are looking for talented high school students to create a new robotics startup that will design and build robots to compete in the FIRST Robotics Competition (FRC). Build your own culture, create your own organization, build your own brand, raise money, partner with local businesses, and design, build, and test competitive products. Experience and learn what it takes to start and run a technology-focused business:

- |                         |  |
|-------------------------|--|
| - <b>Management</b>     | - <b>Engineering</b>                   |
| - <b>Finance</b>        | - <b>Programming</b>                   |
| - <b>Accounting</b>     | - <b>Electronics</b>                   |
| - <b>Marketing</b>      | - <b>Mechanical fabrication</b>        |
| - <b>Graphic design</b> | - <b>Testing and integration</b>       |
| - <b>Website design</b> | - <b>Multimedia production</b>         |
| - <b>Social media</b>   | - <b>STEM outreach &amp; mentoring</b> |

Jump on board! This kind of experience is what colleges and companies are looking for. Contact us for more information about our volunteer non-profit organization, or go to <http://www.usfirst.org/roboticsprograms/frc/> to learn more about the benefits and challenges of FRC and FIRST.
